About Coventry Building Society

Coventry Building Society is a mutual organisation owned by you, our members. Our story is a strong one: for over 140 years, we've put our members first. We keep your money safe and provide great value and service. We are also growing our membership and investing in your future, looking forward not back to stay relevant in a changing world.

We're making some changes to our branch network

We're committed to providing the very best branch service for our members, customers and local communities. To reflect this, over the next few years, we'll be continuing to invest in our network across Coventry Building Society and The Co-operative Bank. We know how important branches are to the communities they serve, and our fantastic branch colleagues make them places where people feel supported and valued.

To make sure we're investing in the right way and in the right places, we've taken a look at all our branches. In recent years, the number of people going into banks and building society branches across the UK has fallen. Many customers like to manage their money online. They also use less cash to pay for things. Because of this, many banks and building societies have closed branches or moved employees to new roles.

As a Society, we've seen this in our own branches. Since 2018, transactions have fallen by around 45%. To make sure our branch network continues to thrive and we invest in the right areas, we're proposing to close some of our branches.

Impact Assessment – why is this happening?

We've published this document to make sure our members and customers are kept up to date with our plans. In this instance, we're proposing to close our Nailsworth branch due to its low usage and to help us maintain a thriving branch network that's valued by members.

Before making this decision, we considered a number of things. We thought about how it might impact any members. We looked at how suitable each location is, including how they are being used, and what alternatives there are for members in each area.

We'll provide an update with any feedback we've received two weeks before the proposed closure. This will include details on how we're going to answer any concerns raised and our plans moving forward.

Member and customer engagement

We know that closing our branch in Nailsworth will affect the local community. That's why we're working to explore how this may impact people in the area.

We'll write to all members who have transacted in the Nailsworth branch within the last year to let them know about the proposed closure. This will include:

- Talking to members and customers that come into the branch about other ways we can support them. This will include helping them to use our telephone and digital services via our online banking and our app.
- Identifying the nearest local branches alongside travel time to them by car and public transport. We'll also signpost to other local organisations, such as Citizens Advice and Age UK.

We'll write to the following stakeholders to inform them of the proposed closure – local MP, local council, Citizens Advice and Age UK.

We'll publish a summary of any feedback we receive about the proposed closure. This will cover how we're going to answer any issues or concerns raised. We'll make this report available in the Nailsworth branch and on our website.
